SPEEDY STRUT®
COMPLETE STRUT ASSEMBLIES
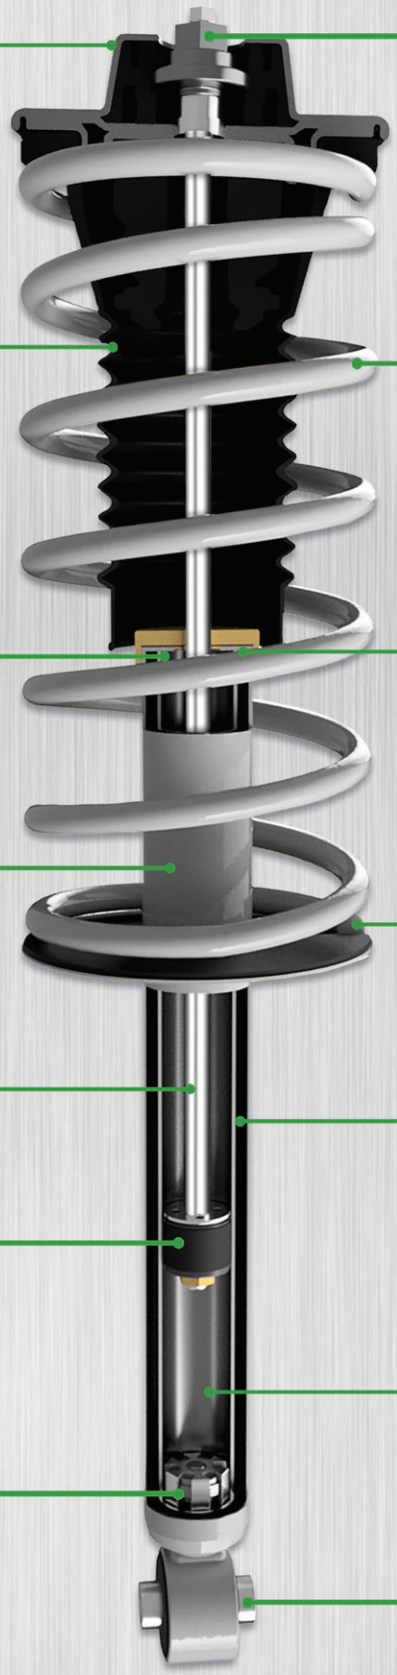
BY SENSEN

The BETTER QUALITY Option!

Limited LIFETIME Warranty



- Premium Grade Strut Mounts, Bearings and Proprietary Rubber Materials
- SAE-Grade 8 Mounting Hardware
- One-Piece Dust Boot and Jounce Bumper
- OE Grade Steel Coil Springs
- Double-Lip Premium Oil Seal
- Heavy Gauge Tube Wall Thickness
- Professional Powder-Coat Paint Finish for Long-Lasting Corrosion and Rust Protection
- Heavy Gauge Spring Seat
- Fully Chromed Piston Rod
- Premium Quality, Seamless Twin Tube Design
- PTFE Coated, Sintered Iron Piston
- Premium Grade Oil that Keeps Its Properties at Temperatures of 130c to -40c
- Modern, Progressive Disc Valve Technology
- Solid Steel Eye-Ring

SENSEN®
STRUTS & SHOCK ABSORBERS

SENSEN® Competitive Quality Advantages

	SENSEN	COMPETITION
	SENSEN® uses OE quality coil spring suppliers for all complete strut assemblies with high standards for quality control and metallurgy.	Competitors use less reliable coil spring sources, which can lead to variances in strength due to inconsistent coil diameters.
	SENSEN® strut mount assemblies use bearings from a world-class manufacturer with quality awards from companies like Hitachi® Vehicle System.	Competitors use lower quality bearings and bushings which can lead to unwanted noise.
	The quality of oil used in the part is critical to avoid foaming, fade and noise problems. **SENSEN®** uses Premium grade oil that keeps its properties at temperatures of 130c to -40c. If the oil does not maintain its properties with a high temperature; the shock/strut assembly will fade at high temperatures and cause noisy operation at low temperatures.	Competitors do not use Premium grade oil oil.
	SENSEN® uses NOK double lip oil seals. NOK is a Japanese premium quality seal supplier.	Competitors use oil seals of reduced quality, increasing the risk of misting and premature lifecycle failure.
	Piston rod quality is critical to the longevity of the shock/strut assembly. **SENSEN®** produces their own piston rods with Japanese grinding machines for excellent concentricity. **SENSEN®** has their own automated hard chrome plating line to ensure the roughness (RMA) meets OE standards.	Competitors have reduced finish quality, which can lead to premature seal failure, causing leaks.
	SENSEN® uses seamless steel tubes. This leads to improved concentricity and longevity.	Competitors use welded seam tubes, making them less durable.
	The quality of valve discs is critical to the proper performance of the shock/strut package over a wide range of road conditions and temperatures. **SENSEN®** uses OE quality suppliers. Each valve pack is engineered specific to the vehicle application.	Some Competitors use sub-standard valve discs, leading to reduced performance quality.
	All hardware used with **SENSEN®** shocks/struts is equivalent to SAE Grade 8 standards.	Not all Competitors include hardware.

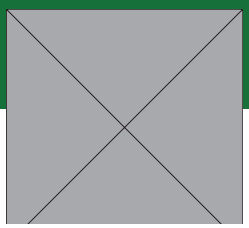
IMPORTANT INFORMATION

The goal of this catalog is to provide our customers with as complete a listing of their parts requirements as possible. We took great care to ensure that all listings, applications, and interchanges were compiled as accurately as possible; however, we cannot assume any responsibility for possible errors in listings, applications or interchanges. If you come across an error in our listings, applications and interchanges, we would greatly appreciate your feedback at **distributorsales@dm-access.com**. All references to original manufacturer's and competitor's trade names and part numbers are for identification only.

This catalog supercedes all previous catalogs and listings.



LIMITED LIFETIME WARRANTY

SENSEN® is pleased to warrant to the original vehicle owner that each new **SENSEN**® strut or shock shall be free from defects in workmanship and materials, when used on private non-commercial vehicles and when used under normal operating conditions. Lifetime is defined as for as long as the original purchaser owns the vehicle on which the **SENSEN**® products were installed.

This warranty is limited to the exchange/replacement of the **SENSEN**® product that is being claimed as defective. This warranty makes no further expressed or implied obligation under this warranty. This warranty is expressed for the exchange or replacement cost of the defect product or a refund of the original purchase price of the product. This warranty does not apply to conditions caused by normal wear and tear or to products that have been altered, modified, improperly installed, used in applications other than their original intent, and damaged due to vehicle modification or accident.

All cost associated with the installation, removal and replacement of the defective product is not included in this warranty and shall not be considered for re-imbursement.

Procedure for Making a Warranty Claim

As the exclusive authorized distributor for **SENSEN**® in North America, all warranty claims will be processed by DMA Industries, LLC on the behalf of **SENSEN**®. All warranty claim decisions made by DMA Industries, LLC are final.

In order to process a warranty claim, the defective part must be returned to the parts distributor with whom the part was originally purchased. The defective part must be accompanied by the following documents:

1. Original dated purchase invoice showing to whom the part was sold and when it was installed.
2. Replacement part dated invoice showing that the defective part was replaced with a new **SENSEN**® part.

Once the part has been inspected by the original distributor and determined to comply with the stipulations of this warranty, all defective parts should be held by the distributor and the associated paper work must be returned to DMA Industries, LLC for final processing. Upon receiving the warranty documents, DMA Industries, LLC shall issue the parts distributor a credit on their account for the amount of credit due, if all is in compliance to the warranty policy. Once warranty is credited, the distributor shall be responsible for destroying the product. If DMA requests warranty products to be returned, the distributor must return the parts to DMA in order to receive credits.

SPEEDY STRUT®

COMPLETE STRUT ASSEMBLIES

BY SENSEN®

QUALITY!

- Premium components and strict manufacturing standards make SPEEDY STRUT® one of the best quality ride control options available.

VALUE!

- *Vehicle Owners*
  SPEEDY STRUT® saves you time and money. The complete strut assembly contains all new parts, reducing the risk of premature failures and decreasing installation time.

- *Installation Professionals*
  SPEEDY STRUT® installation saves 50% or more on repair time versus traditional strut replacements. Resulting in shorter wait times for customers and increased time to repair other vehicles.

SAFETY!

- SPEEDY STRUTS® are pre-assembled at the factory and do not require the use of a spring compressor. They provide a safer installation alternative for DIY consumers AND service professionals. Each SPEEDY STRUT® includes all the important components, strut, coil spring and strut mount, all pre-assembled.

Built on BETTER,™ Guaranteed QUALITY!
