# ATLAS LIFT™

LIFT SUPPORTS BY DMA INDUSTRIES

**END CONNECTORS**  
OE matching connectors to ensure proper fit and function.

**POWDER COATED TUBE**  
superior corrosion resistance keeps the exterior free from rust for the life of the lift support.

**(DDT)**  
proprietary DYNAMIC DAMPENING TECHNOLOGY.

**PISTON PACK FLOW CONTROL VALVE**  
specially engineered flow control valve in the piston package for a smooth opening and closing rate.

**O-RING SEAL**  
provides sealing of the internal tube and separation between the oil and nitrogen gas chambers.

**WIPER SEAL**  
eliminates sticking and provides even surface oil coverage and linear opening and closing.

**WORLD-CLASS NITRIDE COATED SHAFTS**  
provides smooth operation, corrosion resistant surface, and longer life.

## ATLAS LIFT™ SUPPORT LIMITED LIFETIME WARRANTY

ATLAS LIFT™ is pleased to warrant to the original vehicle owner that each new ATLAS LIFT™ support shall be free from defects in workmanship and materials, when used under normal operating conditions. Limited Lifetime Warranty is defined as for as long as the original purchaser owns the vehicle on which the ATLAS LIFT™ products were installed.

This warranty is limited to the exchange/replacement of the ATLAS LIFT™ product that is being claimed as defective. This warranty makes no further expressed or implied obligation under this warranty. This warranty is expressed for the exchange or replacement cost of the defect product or a refund of the original purchase price of the product. This warranty does not apply to conditions caused by normal wear and tear or to products that have been altered, modified, improperly installed, used in applications other than their original intent, and damaged due to vehicle modification or accident.

All cost associated with the installation, removal and replacement of the defective product is not included in this warranty and shall not be considered for re-imbusement.

### Procedure for Making a Warranty Claim

As the exclusive authorized distributor for ATLAS LIFT™ in North America, all warranty claims will be processed by DMA Industries, LLC on the behalf of ATLAS LIFT™. All warranty claim decisions made by DMA Industries, LLC are final.

In order to process a warranty claim, the defective part must be returned to the parts distributor with whom the part was originally purchased. The defective part must be accompanied by the following documents:

1. Original dated purchase invoice showing to whom the part was sold and when it was installed.
2. Replacement part dated invoice showing that the defective part was replaced with a new ATLAS LIFT™ part.

Once the part has been inspected by the original distributor and determined to comply with the stipulations of this warranty, all defective parts should be held by the distributor and the associated paper work must be returned to DMA Industries, LLC for final processing. Upon receiving the warranty documents, DMA Industries, LLC shall issue the parts distributor a credit on their account for the amount of credit due, if all is in compliance to the warranty policy. Once warranty is credited, the distributor shall be responsible for destroying the product. If DMA requests warranty products to be returned, the distributor must return the parts to DMA in order to receive credits.

### IMPORTANT INFORMATION

The goal of this catalog is to provide our customers with as complete a listing of their parts requirements as possible. We took great care to ensure that all listings, applications, and interchanges were compiled as accurately as possible; however, we cannot assume any responsibility for possible errors in listings, applications or interchanges. If you come across an error in our listings, applications and interchanges, we would greatly appreciate your feedback at [customerservice@dm-access.com](mailto:customerservice@dm-access.com). All references to original manufacturer's and competitor's trade names and part numbers are for identification only.

*This catalog supercedes all previous catalogs and listings.*

1990-1992	LS10264	Liftgate	All Models
1986-1986	LS10887	Trunk Lid Lift	All Models

Universal Lifts are commonly found on:

Steps to determine the best replacement Universal Lift:

1. Remove old lift support
2. It is important to measure connectors from center to center, see "A" points below

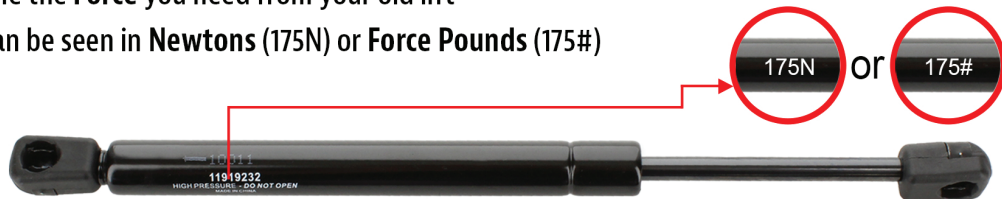

3. Measure to determine Stroke, see "B" points below

4. Determine the Force you need from your old lift

- Force can be seen in Newtons (175N) or Force Pounds (175#)

5. Go to the Atlas Lift™ Chart to determine which Atlas Lift™ is the part you need!

### Atlas Tips!

- Measurements do not have to be exact; we have grouped our parts into ranges for you to choose from. **Extended Length** can be up to 1/2 inch from your current part.
- If you are in between **Ranges** when it comes to **Force**, round up to the next **Force Range**.
- **Always replace in pairs, where applicable!**

### Socket Types:

10MM Ball Socket

13MM Ball Socket

Blade
